

## Motivation Letter

With a Bachelor's Degree in computer science, over 5 years of hands-on experience at the Finance(Investment and Credit Unit) creating and implementing software applications, and the ability to troubleshoot and solve problems in a timely and accurate manner, I confidently express my interest for Software Engineer focus on Java and related Technologies. Also I have great passion to learn new Technologies such as Docker, Kubernetes and Cloud. Also I Interest and research to learn and improve my abilities on AI Technologies.

Understanding the importance of future keys such as resillince, velocity and quality are crucial. Because, these keys are shown how and how much we are ready for future and how we can keep up with future and how we can write our future story. I think I am appropriate and willing for this position with personal abilities such as open communication, happy to sharing experience with my friends, willing to help to friends, also have a great sense of responsibility, patience and managment, and technical abilities which details were given in my Resume.

Also for development my personal and technical side, I have got some courses and conferences which I've attended as follows;

### Courses:

- Effective Java Using Design Patterns
- Java SE Programming
- Developing Enterprise Applications using Spring 3 Framework
- Building Rich Internet Applications using HTML5, CSS3 and Javascipt

### Conferences;

- SpringOne Tour Istanbul Conference by Pivotal / April 2019 Istanbul
- Java Day Istanbul / March 2019 Istanbul
- Oracle Day Istanbul / 2019
- O'Reilly Software Architecture Conference / Oct. 2018 London
- SpringOne Tour Istanbul Conference by Pivotal / Sept. 2018 Istanbul

I truly believe in continued education and research and continue to seek new software and methods to assist with product development.

Attached is a copy of my resume that further explains my background and technical skills.

Best regards.

Ates, Ibrahim H.
